

Patient Fees

Dear Patients,

Welcome to Idaho Diabetes and Endocrine Associates, P.A... In an effort to provide better service, we recommend that you call the office for an estimate of current billing rates for services/appointments. We will gladly provide you with an estimate of services; however, this is an estimate only. Estimates are subject to change according to the services that are provided at the time of your appointment.

We will bill your insurance as a courtesy, but please check with your insurance provider to determine your current benefits and if our providers are in-network with your plan. It is our office policy to *collect all co-payments and deductibles at time of service*, so it is very important that you know if you have met your deductible, what your copay is, how much has been met towards your deductible, how your insurance pays once your deductible has been met, and how your insurance will process lab fees.

Thank you for this opportunity to provide care with the utmost respect. If you have any questions regarding billing issues, please call our office and talk to the office manager.

Sincerely,
The Staff at Idaho Diabetes and Endocrine Associates, P.A.

I have read and understand that I am responsible for the patient portion of office visits, appropriate lab work, and/or other services. I understand that if my insurance does not cover any services rendered, then I am responsible for any balance remaining.
