PATIENT FEES

Dear Patients,

We will bill your insurance as a courtesy but please check with your insurance provider before your first appointment to determine your current benefits and if our providers are in-network with your plan. It is our office policy to **collect all co-payments and deductibles at the time of service.** It is very important that you know if you have met your deductible, what your co-pay is, how much has been met towards your deductible, how your insurance pays once your deductible has been met and how your insurance will process lab fees.

Also, in order to respect all patients, our fee for missing appointments (no shows) and for appointments cancelled outside the required 24 hour time frame is $75.00. As before, in case of a true emergency, we are happy to waive the fee.

Thank you for this opportunity to provide care with the utmost respect. If you have any questions regarding billing issues, please call our office and talk to the billing manager.

Sincerely,
The Staff at Idaho Diabetes and Endocrine Associates, P.A.

I have read and understand that I am responsible for the patient portion of office visits, appropriate lab work, and/or other services and any no show fees. I understand that if my insurance does not cover any services rendered, I am responsible for any remaining balance.

PRESCRIPTION REFILL POLICY

There are many legal, medical, and ethical issues we must consider and follow when authorizing a continuation of a medication prescription. We have strict policies to protect both you and our providers. Our staff has been directed to follow these policies for your safety. Please do not ask our staff to make exceptions for you.

1. We will only refill medications prescribed by Idaho Diabetes and Endocrine Associates. We will not authorize refills for medications prescribed by another provider. If you have requested that we take over management of these medications, we will be able to continue your prescription for you.
2. We may not refill a prescription if you have not had an appointment within the last three months or if you missed your previously scheduled appointment. We must be able to monitor your progress and response to medication on a regular basis to determine if the dose is appropriate.
3. No refills may be authorized by the staff beyond the follow up appointment date noted by your provider in the progress note. If you have not been seen by the recommended follow up date, the provider may authorize up to a one month supply. This is to give you time to schedule an appointment with our office or transfer care to another provider.
4. It is important to report all medications that you are taking to every provider you are seeing, to avoid potential drug interactions. Carrying a medication list with you is a good idea. You can pick up a medication card from our front desk. Please bring this card to every visit.
5. It is your responsibility to notify your pharmacy that you are in need of a refill prior to running out. The pharmacy will then send our office a notification of your request. Please allow two (2) business days for your request to be processed.
